Maths Ten for Ten Answers: Day 7

Eggstra-support

Day 8 Arithmetic	1	500
	2	3896
	3	1/8
	4	652
	5	1,980
	6	1068
Day 8 Reasoning	1	Fifty three thousand, one hundred and forty eight
	2	6 x 30 = 180 , 110 + 180 = 290 is closest
	3	115
	4	a) 4 (not "400") b) 6
	5	500 - 140 = 360ml

Egg-spected

Day 8 Arithmetic	1	500
	2	3,896
	3	238
	4	12/15 + 5/15 = 17/15 = 1 2/15
	5	6/14 or 3/7
	6	2 + 3/6 + 2/6 = 2 5/6
Day 8 Reasoning	1	Fifty three thousand, one hundred and forty eight
	2	300 - 110 = 190 then 6 x 30 = 180 so 290 is the closest
	3	115
	4	15 (probably by trial and error)
	5	500 - 140 = 360ml

Egg-ceeding

Day 8 Arithmetic	1	0.0385
	2	356 - 3.56 = 352.44
	3	238
	4	12/15 + 5/15 = 17/15 = 1 2/15
	5	6/14 or 3/7
	6	2 + 3/6 + 2/6 = 2 5/6
Day 8 Reasoning	1	300 - 110 = 190 then 6 x 30 = 180 so 290 is the closest
	2	2 x 6 = 12 (half base x p.height)
	3	15 by trial and error, or: 5a-60=a so 4a=60 then a=15
	4	90 degrees for chicken. Then 270 degrees (left over) is split into 5 parts (one part mushroom and 4 parts tomato). So 4/5 of 270 = 216 degrees
