I have a dream, that one day the historic sites of this beautiful country
will be preserved for younger generations
And that these historic places will be remembered and respected for their role in this country's welfare.

I have a dream, that one day there will be no more wars in this world
So no innocent people will die for someone's mistake
And that one day there will be no more wars
All the countries will be united together.

I have a dream, that one day all the children in this world will be educated
So they can get the same chance at life as others
they can grow up and make a change to the world
And that all the children will help each other.

I have a dream, that one day all the people of the world will be treated equally
And that all the people will be treated the same as their neighbours
That they will be able to have the same chance at life as others
So that we can live equally and no one will be bullied.

I have a dream, that one day the lungs of this earth will be clean again
So the life on earth will be beautiful
Including all the animals that will be happy in a clean earth
And that everyone will be able to enjoy the beautiful earth.

I have a dream, that one day the organic oceans will be clean
all the turtles and dolphins will be free from the plastic terror
So the sharks will stop being killed for their fins
And that we will all be able to enjoy this beautiful earth's water.
