I have a dream

I dream that one day we'll live in peace,
No fighting, no wars,
Everyone treated equally,

I dream that the nation will stick together,
No one will stand in our way,
Everybody here for eachother,

I dream that all will be happy,
No hatred, anger or dishonesty,
No one will make anyone unhappy,

I dream that no one will be lonely,
We will always be there,
Everyone has a friend,

I dream that the homeless are safe and never alone,
That they have all the support they need,
They will all have a place they can call home,

These dreams can be achieved,
If everyone works together, if these dreams come true,
The world will be released.
