. If my dream came true .

I have a dream that our people of the world have a home with warmth,
No living in the cold ,No suffering, No fighting

More jobs More businesses More food to go round
Better properties
Better lifestyle for all and everyone

I have a dream that skies can roam free
People can breathe free
Polar bears can stay on the ice instead of it melting away

If everyone had a chance to pursue their dreams
Everyone would be happy
It would give kids a chance to be themselves

Cars would be electric
Pollution no pollution
It will not come from cars or anywhere

No more fights black protests no longer
Immagrationshall disappear
No people getting hurt because of their skin
